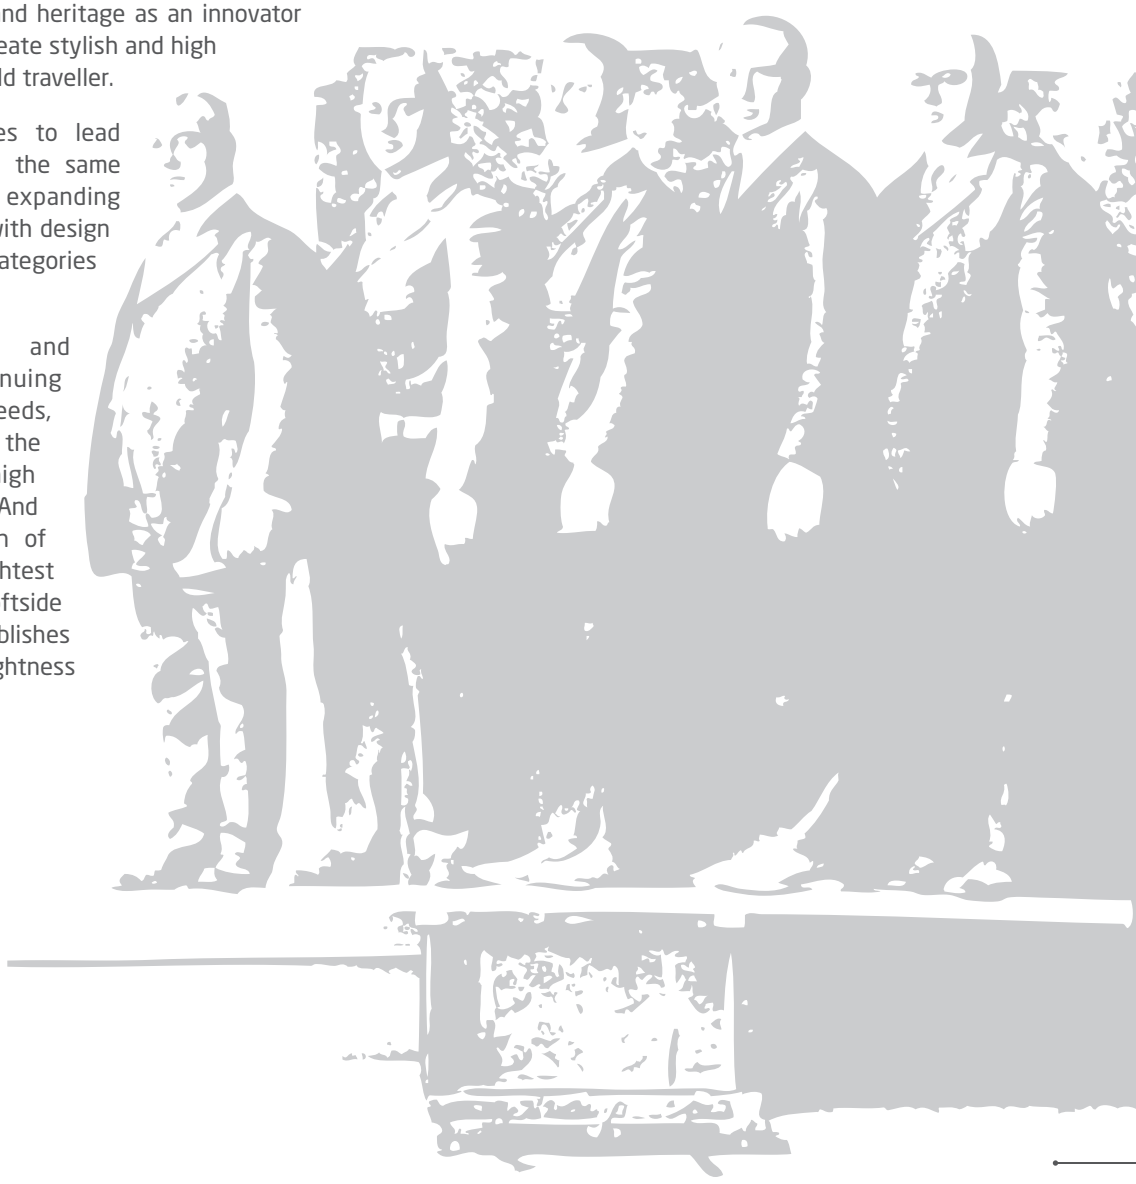
100 years strong
Samsonite

Samsonite HISTORY 2010

When Jesse Shwayder founded Samsonite® in 1910, travel was once reserved for only an exclusive few, those who had the means to see the world. Given this exclusiveness, travel was a high quality experience from the transportation, to the attention to service, to even the accessories used to carry one's belongings. As one of the original brands in travel, Samsonite has continued to leverage its craftsmanship and heritage as an innovator for the past 100 years, to create stylish and high quality solutions for the world traveller.

Today, Samsonite continues to lead the luggage category with the same core principles, further expanding Shwayder's vision globally with design and innovation into product categories and consumer targets.

By identifying trends and interpreting the continuing evolution of travellers' needs, Samsonite continues to lead the market with innovative, high quality and stylish designs. And now, thanks to the launch of Cosmolite and B-Lite, the lightest Samsonite hardside and softside ranges ever, Samsonite establishes itself now as the leader of lightness in the luggage industry.



Samsonite Milestones

Ever since its earliest days, Samsonite has been the most innovative luggage manufacturer in the world. It has led the industry in using new materials and creating new designs. Here are just a few of the Luggage Landmarks that Samsonite has created over the years, as part of its tradition of innovation.

1910 The Shwayder Brothers, the company's original founders, manufacture robust wooden trunks.

1941 Introduction of a new type of luggage: Streamlite.

1956 Introduction of breakthrough products including Ultralite, the first suitcase made of lightweight magnesium and ABS.

1958 Launch of Silhouette, the most advanced luggage made up to that time, included a new, modern shape and recessed hardware to protect it from wear and tear.

1962 The first ABS attaché case is created for a new generation of executives.

1967 Introduction of the first polypropylene suitcase with recessed locks for more streamlined appearance and function.

1969 Launch of the new Saturn suitcase, the first polypropylene case whose structure was fully supported by injection-moulded shells. This revolutionary design becomes the most widely accepted way to produce modern hardside luggage.

1973 Samsonite introduces an attaché case with 'right-side-up' feature, preventing it from being opened when the case is upside down.

1974 The first Samsonite wheeled suitcase is created - a true revolution in travel comfort and convenience.

1975 Samsonite launches a range of soft suitcases with a vinyl frame.

1978 The first polypropylene attaché case.

1986 The first suitcase with a three-point latching system: Oyster.

1991 Introduction of a revolutionary brake-equipped suitcase.

1994 Introduction of a range of polypropylene suitcases with zipper closure, hard and soft combination.

1997 The Ultra Transporter: the first Upright case which can be pushed or pulled, and which has an organised interior.

1998 The first Big Wheel Upright case, offering perfect manoeuvrability and silent rolling.

1999 Launch of the lightweight polycarbonate attaché case.

2000 Introduction of Samsonite's first aluminium product.

2004 Samsonite markets the four-wheel Spinner, making travellers' lives easier.

2005 Samsonite Black Label redefines fine travel goods.
Marc Newson designs Scope blending futuristic technology with lush bold colours.

2006 Alexander McQueen designs a new eye-catching luggage collection for Samsonite Black Label.

2007 Graviton – Samsonite's first case with shock absorption wheels.

2008 Launch of Cosmolite, the strongest and lightest Samsonite ever, manufactured with new Curv® technology. This revolutionary material is extremely lightweight and offers exceptional resistance to impact.

2009 Samsonite Black Label introduces the McLaren collection, in partnership with the F1 team.

2010 Samsonite celebrates its 100th year, firmly established as the world leader in the travel goods field and still setting the standards in quality, innovation, durability and lightness. With the addition of the B-Lite collection, the lightest Samsonite softside range ever, Samsonite establishes itself as the leader in lightweight luggage.

100 years strong Samsonite

Cosmolite™

TRAVEL COLLECTION

Cosmolite is our unique design collection, made with the revolutionary Curv® technology. This iconic collection is a bestseller, thanks to the combination of its unique shape, great strength and immense lightness. Cosmolite is the strongest and lightest Samsonite ever. Made in Europe.

- Unique design, inspired by nature, Cosmolite won the prestigious Reddot Design Award "Best of the Best 2010", the largest, most highly acclaimed and toughest design competition in the world.
- Made with Curv® technology*, enabling a strong but still extremely light suitcase. The shell form and process is patented by Samsonite.
- Functional interior: elastic cross ribbons, 1 mesh divider.
- Bungee cord for securing baggage on top (not on Spinner 85/32).
- TSA Lock® for secure travel to the USA*.

McLaren Sport travel

TRAVEL COLLECTION

The SBL McLaren® Sport hardside collection results from the on-going collaboration between Samsonite Black Label and McLaren*. It is inspired by high quality hardside products, combined with the requirements of the sport luxury world of Formula 1.

- ABS sheets with laminated brushed effect film.
- Durable 600 x 200D twist dobby nylon body fabric with McLaren grey and red accents.
- Special suspension wheels with visible spring.
- Matt nickel hardware.
- Perforated leather carry handles.
- Polyurethane corner protection.
- Soft-touch brushed polyester lining in grey.

* McLaren is a registered trademark of McLaren Racing Limited.

Sahora travel™

TRAVEL COLLECTION

Sahora business
> p. 65

Sahora is the sum of everything there is to know to make travel comfortable and easy. Samsonite has made Sahora lighter, improved the functionality and organisation through more space and clever pocketing, and delivered a cool, modern, bright organic shape that uses hybrid travel technology.

- Made from a combination of 1200 and 600 denier polyester which is laminated onto ABS corner parts.
- Optimised Spinner cases offering advanced spinning comfort thanks to the larger wheels on the back.
- Increased packing comfort thanks to the see through mesh divider and the detachable laundry bag.

This Samsonite range equips the business man of today with Samsonite's 100 years of unrivalled luggage know-how. Some business items offer the Checkpoint-friendly feature which will satisfy the most demanding business travellers. These models have been designed in compliance with TSA® guidelines so your laptop does not need to be removed when passing through airport security(*).

The split opening case must be packed appropriately to ensure an unobstructed scanning of your laptop in its dedicated compartment.

- Nappa leather and armoured nylon (2520 denier x 1682 denier nylon).
- Padded laptop compartment.
- Smart Sleeve (on certain models only).
- TSA padlock® for security assured travel to and from the USA (on certain models only).

* The TSA has complete discretion as to whether a laptop case can pass through security without further screening.

Laptop Pillow 2™

BUSINESS COLLECTION

Understanding the rigours a laptop goes through during travel led Samsonite to use innovative memory foam lining, a deep cushion that can withstand a range of impacts and deliver outstanding protection. The Laptop Pillow² offers unparalleled innovation and contemporary, stylish design features and detailing.

- Perforated memory foam cushions help protect your computer by moulding to its shape.
- This foam keeps bags lightweight and allows for heat dispersion.
- Made from 600 denier polyester x 360 denier polyamide.

Cabin luggage

Cabin baggage - can be taken on board an aircraft (this item meets the IATA recommendations): cabin baggage should have a maximum length of 56 cm, width of 45 cm and depth of 25 cm. These dimensions include wheels, handles, side pockets, etc.

Note: due to capacity limitations some airlines do apply further restrictions on size and/or weight. Samsonite cannot be held responsible if an airline applies other check-in standards.

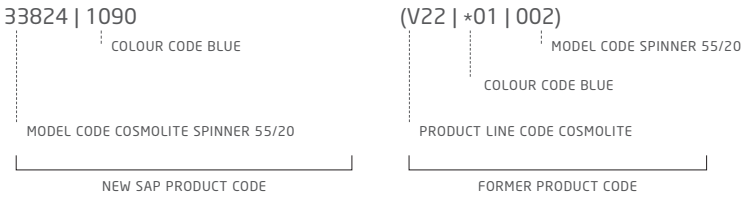
General Info

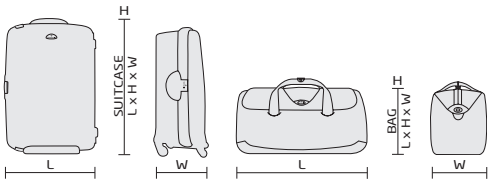
Product Codes

All Samsonite product codes appear as follows:
For example: Cosmolite Spinner 55/20 - Blue:



Dimensions

The dimensions shown in the tables are the outside dimensions including handles, wheels, bottom glides, side pockets, and other external components.



All volumes are measured in litres. These measurements are carried out in Samsonite laboratories using Samsonite measuring procedures.

Quality Tests

We deliver the quality. You conduct the test. Each journey. Each day.

You might not have given it any thought, but each Samsonite product undergoes the most stringent controls and tests before it goes on the market.

Of course, the ultimate test is conducted by the customer.

Warranty

For full details about our warranty, please consult our website www.samsonite.com

www.samsonite.com

The Samsonite website will give you information about the company and its latest product developments.

We look forward to seeing you at www.samsonite.com
